

THOMAS SULLIVAN PH.D.

CLINICAL NEUROPSYCHOLOGY  
BRAIN INJURY ASSESSMENT  
EXPERT TESTIMONY

“ DR. SULLIVAN’S DEPOSITION  
TESTIMONY CLEARLY  
CONVINCED THE OPPOSING  
PARTY THAT WE HAD A WELL  
PREPARED, CREDIBLE EXPERT  
WHO WOULD RELATE WELL WITH  
JURORS.”

– GEORGE BARNETT, ESQ.

Delivering brain injury testimony  
juries can understand.

## THOMAS SULLIVAN PH.D.

“ DR. SULLIVAN EXCELS AT DEALING WITH THE COMPLEX ISSUES PRESENTED BY BOTH REAL AND OPPORTUNISTIC INJURY.”

– MARK A. PRESTON, ESQ.

For a resume or a complementary informal consultation, call Dr. Sullivan at 513-290-6687 or e-mail him at [tom@thomassullivanphd.com](mailto:tom@thomassullivanphd.com).

We look forward to working with you.

Thomas Sullivan, Ph.D. was the team neuropsychologist for the Cincinnati Bengals for 12 years, and now acts as an independent brain injury examiner for the National Football League. Trained at the Yale University School of Medicine, he has provided brain-injury assessment and expert testimony in civil, criminal, and disability cases for the plaintiff and defense for over ten years. His areas of expertise include:

- Traumatic brain injury
- Birth injury
- Toxic brain injury
- Emotional effects of trauma

Recognized as an outstanding teacher, Dr. Sullivan is known for his ability to convey complex information in a manner easily understood by lay audiences. He uses state-of-the-art testing capable of withstanding a Daubert challenge. His evaluations can:

- Detect even mild brain damage
- Verify likely cause of impairment
- Predict lasting effects of injury
- Expose malingering (“faking”)

Dr. Sullivan consults to the Neurology Department at Cincinnati Children’s Hospital. He has delivered over 40,000 hours of neuropsychological services and evaluates both children and adults.
